Location: Calgary, AB

Co-Lead Manager (Underlying Fund)

**Tim Caulfield, CFA**

Franklin Bissett Investment Management, part of Franklin Templeton Investments Corp.

Industry Experience: 17 years

Location: Calgary, AB

## RESULTS OF OPERATIONS

As at June 30, 2018, total net asset value of the Fund was \$170.7 million. The total net assets have remained relatively flat from previous year. The Fund paid or made payable \$575,000 in cash distributions to shareholders.

During the past six months, the Fund's Series A shares generated total returns of -1.1%. Over the same period, the Fund's benchmark index, the S&P/TSX Composite Total Return Index (the "Index"), advanced 2.0%. The performance of the Fund's other series is similar to that of its Series A shares, except for the expense structure. For the return of the Fund's other series (if applicable) please refer to the "Past Performance" section.

The Fund invests substantially all of its assets in units of Franklin Bissett Canadian Equity Fund and accordingly, the discussion that follows pertains to this Underlying Fund. The Fund experienced negative security selection and interaction as well as negative sector allocation. Security selection and interaction was most notably impacted by individual holdings in the Energy, Industrials and Consumer Discretionary sectors. From a sector allocation standpoint, the Fund was most notably impacted by an overweight position in the underperforming Consumer Staples sector, which was partly offset by an overweight position in the outperforming Industrials sector. The Fund is overweighted in the Consumer Discretionary, Consumer Staples and Industrials sectors, and underweighted in the Energy and Materials sectors.

After contracting in the first quarter of 2018, the Index advanced 6.8% in the second quarter, resulting in a year-to-date gain for Canadian equities of 2.0%. The Canadian equity market set a new all-time high on June 22, surpassing the prior all-time high set on January 4, 2018. As such, the Canadian equity market remains entrenched in the current bull market run.

For the six-month period, six of 11 Global Industry Classification Standard sectors posted positive total returns. The best-performing sectors were Information Technology, Industrials and Real Estate, which gained 22.2%, 6.6% and 5.3%, respectively. Conversely, the worst-performing sectors were Utilities, Telecommunication Services and Consumer Staples, which declined 6.2%, 5.0% and 2.6%, respectively. The price of crude oil was materially stronger over the reporting period,

with West Texas Intermediate increasing 23% to US\$74.15 per barrel, its highest level since November 2014. Natural gas, on the other hand, declined modestly by 1% to US\$2.92 per mmbtu (per million British Thermal Units, as gauged by NYMEX). Base and precious metal prices were generally weaker over this six-month period, with copper declining 11% to US\$2.95 per pound, gold decreasing 4% to US\$1,253 per ounce and silver contracting 5% to US\$16.12 per ounce.

Trading activity remained steady during the reporting period as ongoing volatility presented a number of attractive rebalancing opportunities. In keeping with the low turnover nature of the Fund, over the past six months there were three new additions and three eliminations in the portfolio.

Index performance comparison information is provided for reference only. It is important to note that the Fund's return reflects the effect of fees and expenses for professional management, while an index does not have such costs.

Average net assets of the series of the Fund that bear expenses have remained relatively flat for the six months ended June 30, 2018, resulting in expenses remaining relatively unchanged during the period.

## RECENT DEVELOPMENTS

Franklin Bissett Canadian Equity Fund has been actively managed through several market regimes of strong and weak sentiment and varying sources of sector leadership. The portfolio manager continues to believe that the Fund's performance objectives represent a compelling value proposition and remains confident in the quality of the investment opportunity set, research capabilities and ability to consistently execute the investment process.

## FORWARD-LOOKING STATEMENTS

Investors should take note that certain statements in this report about a fund, including its strategy and expected future performance, are forward-looking. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may," "will," "should," "could," "expect," "anticipate," "intend," "plan," "believe," or "estimate" or other similar expressions. Any statement that is made concerning future strategies or performance is also a forward-looking statement. Statements that look forward in time or include anything other than historical information are subject to risks and uncertainties, and actual results, actions or events could differ materially from those set forth in the forward-looking statements.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements

contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance. Any number of factors could contribute to differing results, including, among other things, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. This list of factors is not exhaustive. Investors should not place undue reliance on forward-looking information and should be aware that the Fund may not update any forward-looking statements, whether as a result of new information, future events or otherwise.

#### **RELATED PARTY TRANSACTIONS**

The Manager is an indirect wholly-owned subsidiary of Franklin Resources, Inc., a global investment management organization known as Franklin Templeton Investments. The Manager is the manager, registrar and transfer agent and a principal distributor of the Fund. The Manager provides or arranges for the provision of these services for day-to-day Fund operations, including the marketing, promotion and distribution of the Fund and portfolio advisory services. In consideration of these management and portfolio advisory services, the Fund pays the Manager a monthly management fee plus applicable taxes, based on the average net asset value of each series of the Fund (except Series O and OT, as applicable), calculated daily, as set out under Management Fees below. During the six months ended June 30, 2018, the Fund paid management fees of \$708,000 (2017–\$737,000), after management fee waivers of \$7,000 (2017–\$6,000).

Franklin Templeton Services, LLC (FTS) provides the Manager with fund accounting and portfolio valuation services in connection with the Fund, and provides certain back office administration services to the Manager. The Administration Fee, as discussed below, covers the cost of the services provided by FTS.

The Manager pays the operating expenses of the Fund, other than certain fund costs—which include, but are not limited to, the cost of compliance with new governmental and regulatory requirements, fees and expenses of the Fund's Independent Review Committee (IRC), borrowing and interest costs and investor meeting costs (as permitted by Canadian securities regulation)—in exchange for the payment by the Fund of an annual fixed-rate administration fee of 0.23% plus applicable taxes, applied against the average daily net assets of the Fund ("Administration Fee"), except for Series PF, which has an annual Administration Fee of 0.15%, and Series O and OT, which have no annual Administration Fee. The Manager will pay all operating expenses of Series O and OT, as applicable, as part of its agreement with each investor. The Manager may, at its discretion, waive a portion of a series' Administration Fee or absorb certain fund costs. During the six months ended June 30, 2018, the Fund paid Administration Fees of \$113,000 (2017–\$113,000).

During the six months ended June 30, 2018, the Manager waived fund costs of \$1,000 (2017–\$1,000).

#### **Principal Distributor**

As a principal distributor of the Fund, the Manager markets the Fund and arranges for the sale of the Fund through dealers across Canada. The Manager may retain companies to assist in the sale of certain series of shares of the Fund.

The Manager's affiliate, FTC Investor Services Inc. ("FTC ISI"), also acts as a principal distributor for Series F, O, OT, FT, PF and PF (Hedged) shares of the Fund, as applicable.

For acting as a principal distributor of the applicable series, FTC ISI receives an inter-company service fee of 0.20% of the assets under management of the applicable series from the Manager with respect to those series of shares.

#### **Registrar and Transfer Agent**

In addition to management and portfolio advisory services, the Manager acts as the registrar and transfer agent of the Fund. These services are in the normal course of operations and are covered by the Administration Fee paid by the Fund to the Manager.

#### **Standing Instructions from the Independent Review Committee**

The Manager relied on standing instructions from the IRC with respect to the allocation of any operating expenses not covered by the Administration Fee. The Manager relied, or may rely, on standing instructions from the IRC in respect of securities trades amongst mutual funds, investment funds or managed accounts managed by the Manager or an affiliate of the Manager. In both cases, the standing instructions require the Manager to comply with the policies and procedures presented to the IRC with respect to the above matters and to provide periodic reports to the IRC in accordance with NI 81-107.

**MANAGEMENT FEES**

A portion of the management fee paid by the Fund to the Manager is for trail fees and sales commissions the Manager pays to dealers (“Dealer Compensation”). The trail fees are a percentage of the daily average net asset value of each series of the Fund, which is held by the dealer’s clients. The remaining portion of the management fee is used to pay for portfolio advisory and administrative services related to the provision of portfolio advisory services. The table below outlines the Fund’s annual management fee, as well as the portion of the management fee used to pay for Dealer Compensation and for portfolio advisory services as an approximate percentage of the management fee for each series:

Series	Management Fee (%)	Dealer Compensation (%)*	Investment management, investment management expenses, and other (%)
A	2.00	52.03	47.97
F**	1.00	–	100.00
I**	1.40	53.58	46.42
PF	0.75	–	100.00
T	2.00	52.46	47.54

\*Dealer compensation may include other fees related to distribution, which are not payable directly to dealers.

\*\* Management Fee waiver is applied to the following series at the specified rates— Series F—0.17%; Series I—0.12%;

The management and administration fees for Series O and OT are paid for by the shareholder directly to the Manager as follows:

- First C\$200,000 to under \$2.5 million—0.90%
- Next C\$2.5 million to under \$5 million—0.75%
- C\$5 million and over—0.65%

Certain institutional investors may negotiate the management and administration fees by written agreement with Franklin Templeton Investments.

**PAST PERFORMANCE**

The following information assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund and does not take into account sales, redemption, distribution or other optional charges that would have reduced returns. Past performance does not necessarily indicate how the Fund will perform in the future.

**Year-by-Year Returns**

The bar chart shows the Fund's performance for the six-month period ended June 30, 2018, and for each of the previous 12-month periods ended December 31. In percentage terms, the bar chart indicates how much an investment made on January 1 would have grown or decreased by the end of the period.

\*For the period January 1 to June 30, 2018

## NOTES TO FINANCIAL HIGHLIGHTS

### Net Assets per Share:

- (1) This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. In the period a fund or series is established, the financial information is provided from the date of inception to the end of the period. In cases where the net assets per share presented in the financial statements differ from the net asset value calculated for Fund pricing purposes, an explanation of these differences can be found in the notes to the financial statements.
- (2) Net assets and distributions are based on the actual number of shares outstanding at the relevant time. The increase/decrease in net assets from operations is based on the weighted average number of shares outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per share.
- (3) Dividends were paid in cash or reinvested in additional shares of the Fund or both, and exclude distributions of management fee reductions to shareholders.

### Ratios and Supplemental Data:

- (1) This information is provided as at the period-end of the year shown.
- (2) Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of net asset value during the period. For funds that invest in multiple Underlying Funds, the trading expense ratio represents the Fund's proportionate share of total commissions and other portfolio costs of the Underlying Fund as an annualized percentage of its daily average net assets during the period. For funds that invest substantially all of its assets in an Underlying Fund, the trading expense ratio shown is that of the Underlying Fund.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling each security in its portfolio once in the course of the relevant period. The higher the portfolio turnover rate in the period, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. Where a fund has invested substantially all its assets in an Underlying Fund for the entire period, the portfolio turnover rate is zero.

## OTHER FUND INFORMATION

Reported year-by-year returns for past years may be revised, based on the results of recalculations, audits and/or other historical review processes. Such revisions are considered immaterial to performance disclosure unless otherwise stated.

Series I and V, as applicable, are presently capped (closed to new investors). Investors who currently own shares of Series I and Series V may continue to purchase additional shares in those series. These series may become available for purchase by new investors at the discretion of the Manager.
