

# Templeton Growth Fund Series PA-USD

Value | Factsheet as of March 31, 2026

## Investment Overview

This Fund seeks to achieve long-term capital appreciation by investing primarily in equity securities of companies around the world and fixed income securities issued by governments or companies of any country. The Fund may invest in any country or industry in any proportion. The Fund's Series A (Hedged) seeks to minimize the impact of currency fluctuations.

## Fund Highlights

- **Global bias.** Suitable for investors seeking a global investment solution for their portfolio, with a long-term performance record supported by a time-tested research discipline.
- **A team approach to value investing.** Templeton's large global research team is on the ground uncovering the best undervalued opportunities around the world.

## Total Returns

**Performance data represents past performance, which does not guarantee future results.** Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

>50.0 Billion	91.71

**Glossary**

**Turnover** is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds.
