Performance data represents past performance, which does not guarantee future results. Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Series F is available to investors participating in programs that do not require Franklin Templeton to incur distribution costs in the form of trailing commissions to dealers. As a consequence, the management fee on Series F is lower than on Series A.
