

# Franklin ClearBridge Canada Plus Equity Fund Series O-CAD

GARP | Factsheet as of October 31, 2025

## Investment Overview

The fund aims to achieve long-term capital appreciation by investing primarily in a diversified portfolio of Canadian and U.S. equities, with the intent of managing the overall volatility of the portfolio.

## Fund Highlights

- A diversified equity portfolio of high conviction Canadian and U.S. companies, managed to effectively balance risk and return opportunities.
- A core equity fund offering Canadian investors the growth opportunity of equities, and managed to mitigate the impact of equity market downturns.
- The fund's distinctive GARP approach to investing uncovers growth-oriented companies at reasonable valuations. This process enables the fund to access many quality Canadian companies overlooked by strict value and growth managers.

**Performance data represents past performance, which does not guarantee future results.** Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Series O investors do not pay any of the management fees within the fund but instead pay a separate management and administration fee that they negotiate directly with Franklin Templeton Investments Canada. To qualify to purchase or hold Series O units an investor must meet minimum investment requirements as set out in the fund's current prospectus. For more details on the management and administration fee, please read the prospectus. Performance is presented in Canadian dollars and is gross of fees (before management and custodial fees) of Series O units of the Fund. Taking into account such fees would result in lower rates of return.

**Glossary**

**Turnover** is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds.
