

Franklin ClearBridge International Growth Fund Series O-USD

Growth | Factsheet as of March 31, 2026

Effective May 1, 2025, the Franklin ClearBridge Sustainable International Growth Fund changed its name to Franklin ClearBridge International Growth Fund.

Investment Overview

The Fund seeks long-term capital appreciation by investing primarily in equity securities of sustainable issuers outside Canada and the United States.

Fund Highlights

- **Active matters in international equities:** Many international stocks can be mispriced by markets, especially in the short term. Active managers like ClearBridge can exploit these opportunities.
- **Diversification across the Spectrum of Growth:** The team uses a fundamental, bottom-up approach to invest in quality businesses categorized across the Spectrum of Growth - structural, secular and emerging.

Performance data represents past performance, which does not guarantee future results. Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Series O investors do not pay any of the management fees within the fund but instead pay a separate management and administration fee that they negotiate directly with Franklin Templeton Investments Canada. To qualify to purchase or hold Series O units an investor must meet minimum investment requirements as set out in the fund's current prospectus. For more details on the management and administration fee, please read the prospectus. Performance is presented in Canadian dollars and is gross of fees (before management and custodial fees) of Series O units of the Fund. Taking into account such fees would result in lower rates of return.

Glossary

Turnover is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds. **Return on Equity:** A measure of a corporation's profitability that reveals how much profit a company generates with the money shareholders have invested. For a portfolio, the value represents a weighted average of the stocks it holds. **Estimated 3-5 Yr EPS Growth:** An estimated measure of the growth of earnings per share over a forward-looking period. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-month Forward):** A measure of the price to earnings ratio for a stock using the forecasted earnings for the next 12 months. For a portfolio, the value represents a weighted average of the stocks it holds.
