

# Franklin ClearBridge Global Infrastructure Income Fund Series A-CAD

Listed Infrastructure | Factsheet as of March 31, 2026

Effective May 1, 2025, the Franklin ClearBridge Sustainable Global Infrastructure Income Fund changed its name to Franklin ClearBridge Global Infrastructure Income Fund.

## Investment Overview

Income and capital appreciation by investing primarily in equity securities of sustainable issuers in the infrastructure business.

## Fund Highlights

- **An ESG (environmental, social and governance) driven investment process:** ESG factors are baked into the fund's fundamental research and bottom-up security selection process, and risks and opportunities are viewed through an ESG lens.
- **Predictable Income generation throughout the cycle:** The fund selects to invest in income-generating infrastructure assets, with cash flows underpinned by regulation or long term contracts and not economic conditions.
- **Participation in global infrastructure renewal:** Both developed and emerging economies are growing their infrastructure assets, producing new investment opportunities.

**Performance data represents past performance, which does not guarantee future results.** Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

**Glossary**

**Turnover** is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds.
