

Franklin ClearBridge International Growth Fund Series T-CAD

Growth | Factsheet as of January 31, 2026

Effective May 1, 2025, the Franklin ClearBridge Sustainable International Growth Fund changed its name to Franklin ClearBridge International Growth Fund.

Investment Overview

The Fund seeks long-term capital appreciation by investing primarily in equity securities of sustainable issuers outside Canada and the United States.

Fund Highlights

- **Active matters in international equities:** Many international stocks can be mispriced by markets, especially in the short term. Active managers like ClearBridge can exploit these opportunities.
- **Diversification across the Spectrum of Growth:** The team uses a fundamental, bottom-up approach to invest in quality businesses categorized across the Spectrum of Growth - structural, secular and emerging.

Total Returns

	Cumulative				Average Annual				Inception	
	1-Mo	3-Mo	6-Mo	YTD	1 Year	3-Yr	5-Yr	10-Yr	Inception	Date
Series T - CAD	1.78	-1.52	8.54	1.78	10.80	12.31	7.07	3.57	3.17	6/17/2002

Calendar Year Returns (%)

	2025	2024	2023	2022	2021	2020	2019	2018	2017	2016
Series T - CAD	16.32	15.09	10.20	-16.31	11.52	-6.02	7.05	-11.11	12.26	-5.55

Performance data represents past performance, which does not guarantee future results. Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Series T distributions are automatically reinvested unless otherwise requested. Series T may also pay a distribution that must be reinvested in December, consisting of income and capital gains.

Glossary

Turnover is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds. **Return on Equity:** A measure of a corporation's profitability that reveals how much profit a company generates with the money shareholders have invested. For a portfolio, the value represents a weighted average of the stocks it holds. **Estimated 3-5 Yr EPS Growth:** An estimated measure of the growth of earnings per share over a forward-looking period. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-month Forward):** A measure of the price to earnings ratio for a stock using the forecasted earnings for the next 12 months. For a portfolio, the value represents a weighted average of the stocks it holds.

Portfolio Data Information

Holdings are provided for information purposes only and should not be deemed a recommendation to buy or sell the securities mentioned.

Important Information

Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you.

Maximum target annual distribution rate on Series T varies between 5% to 8%, set for the individual fund or portfolio. Annual target distributions are subject to change at the discretion of Franklin Templeton Investments. Investors may choose their desired Return of Capital (ROC) cash payout rate, the remainder will be reinvested in additional Series T units/shares of the same fund or portfolio. An investor's adjusted cost base (ACB) will be reduced by the amount of any ROC payments. If the investor's ACB goes below zero, they will have to pay capital gains tax on any further ROC distributions. Series T may also pay an annual income distribution and capital gains which must be reinvested but will be taxable in the year received. The payment of income distributions is not guaranteed and may fluctuate. Income distributions and ROC cash flow payments are not an indication of performance, rate of return, or yield. If distributions paid by a fund are greater than the return of the fund, the value of the investor's investment will decrease. Investors should obtain advice from a qualified tax specialist on taxation matters.
