

# Franklin ClearBridge Canadian Small Cap Fund Series PA-CAD

Growth | Factsheet as of November 30, 2025

## Investment Overview

The fund seeks long-term capital appreciation by investing primarily in a diversified portfolio of small-capitalization Canadian equities that have proven management and long-term growth plans. The fund may also invest in foreign securities.

## Fund Highlights

- **Small caps provide diversification.** Ideal for investors seeking to add small caps to an investment portfolio can to complement large- and mid-cap holdings and help generate superior risk-adjusted returns over time.
- **Investing for the long term.** The fund invests primarily in companies with a market capitalization of between \$100 million to \$2.5 billion, and invests in companies with proven management and a long-term growth plan.
- **Franklin ClearBridge's time-tested process to balance risk and return.** Understanding the volatility associated with small cap investing, Franklin ClearBridge employs a disciplined "Growth at a Reasonable Price" (GARP) approach which seeks to maintain a balance between risk and return.

## Total Returns

	Cumulative				Average Annual					Inception

Series PA - CAD	19.99	14.82	-7.40	26.02	0.81	—	—	—	—	—

**Performance data represents past performance, which does not guarantee future results.** Current performance may differ from figures shown. Investment return and principal value will fluctuate with market conditions, and you may have a gain or loss when you sell your units.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus or fund facts document before investing. The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Glossary

**Turnover** is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Weighted Average Market Capitalization:** A determination of a company's value, calculated by multiplying the total number of company stock shares outstanding by the price per share. For a portfolio, the value represents a weighted average based on the stocks held. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds.
